## The Thai zodiac

Unlike the western zodiac, which assigns an animal to each month, both the Chinese and Thai zodiacs follow a 12-year lunar cycle, with each of the 12 years represented by an animal, and the designated animal for 2022 is a tiger.

Some Thais believe that the zodiac can forecast people's personalities. People born in the year of the tiger, for example, are brave and powerful. So, how about you?
